| <b>Verification Conclusion:</b> | In accordance with ISO 14064-3:2019, the claim submitted<br>by the responsible party was verified. It was verified that the<br>organization's calculations of carbon emissions within the<br>boundaries meet the requirements of ISO 14064-1:2018 and<br>that the claimed data and information are based on historical<br>fact and there is no major discrepancy. |

The objective of organizational greenhouse gas verification is to confirm the accuracy and conformity of the claim declared by responsible party according to verification criteria. The organizational greenhouse gas verification statement is issued by TÜV SÜD, acting as the third-party validation and verification body, based upon the claim from the responsible party. The data and information supporting the claim were historical in nature. The responsible party is responsible for the claim and its conformity with the applicable specified requirements. This statement does not relieve the responsible party from compliance with any bylaws, federal, national or regional acts and regulations or with any guidelines issued pursuant to such regulations.

# Organizational Greenhouse Gas Verification Statement

**No. CFGHG 124776 0005 Rev. 01**

**Claim:** The total GHG emissions of Zhongtian Radio Frequency Cable Co., Ltd. at the organizational level in 2024-01-01~2024-12-31 in organizational boundary and reporting boundary are 499211.0385 tCO<sub>2</sub>e.

## Verification Scope:

|                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
